

I am writing to express my concern that my K-LOVE radio station is in jeopardy. This radio station is a source of encouragement for my entire family, all during the day and into the night as my 2-year old daughter listens to K-LOVE as she goes to sleep. If this radio station is displaced there would be a void in this community for positive, family friendly music. There is a tremendous amount of music with questionable lyrics that are available over the airwaves. Please allow this unique, positive, uplifting and encouraging radio station to remain on the air.
